

How are respected human rights in Transnistria (video)

How are respected human rights in Transnistria – is the third video report released by Promo-Lex on human rights in the region.

Ensuring the promotion, respect, protection and rehabilitation rights of the people of the Transnistrian region are words that sound good but actions that have not been undertaken and in all probability will never be undertaken in the region. This is a report about the violation of elementary rights to freedom of expression, freedom of association, freedom of religion and the right to a fair trial and representation in cases such as Ilie Cazac and Ernest Vardanean.

The report was made within a Promo-LEX project “Resource and Development Center for Transnistria”, with financial support from the [National Endowment for Democracy](#).

The opinions expressed in this report do not necessarily reflect those of the donors.
